

## Educational and Named Clinical Supervision Webinar

**12** external CPD points

### Introduction

This 3.5 hour on line webinar is essential training for any physician stepping into the role of educational or clinical supervision. It covers the key responsibilities of the role and provides a theoretical basis for different learning styles and generational differences. In addition, it provides practical guidance to manage and give feedback to trainees in difficulty, especially during and after COVID 19. The webinar itself is interactive using discussion, video clips and skills practise to convey the information. There is also additional e-learning to supplement the learning.

### Course structure

- **3.5 hour webinar**
- **2 e-learning modules: Educational and Clinical Supervision and Managing the Trainee in Difficulty**

### Webinar objectives

- Background to the current state of medical education
